My Portfolio

Product Designer with 3+ years of experience designing B2B and B2C digital products, specializing in cybersecurity, high-load systems, and complex enterprise environments.

Experienced in end-to-end product design: from UX research, user journeys, wireframes, and prototyping to scalable design systems and polished interface delivery. Skilled at simplifying technical complexity into intuitive user experiences that support business strategy and product growth.

Actively leverage AI tools including Claude, Cursor, Codex, and ChatGPT for UX research, workflow optimization, rapid prototyping, and AI-assisted design operations.

Tools & Technologies

Design: Figma, Adobe After Effects, Miro
Systems: Storybook, Taiga UI, Design Tokens
Frontend: HTML, CSS
Workflow: AI-enhanced design systems, rapid prototyping, UX optimization
AI Stack: Cursor, Codex, Claude

Education

UX Researcher
Google UX Design
Nov 2025 — Feb 2026

Master's Degree, Information Security Analytics
ITMO University
Sep 2020 — Jun 2022

Bachelor's Degree, Computational Linguistics
SUAI (Saint Petersburg State University of Aerospace Instrumentation)
Sep 2014 — Jun 2018

Languages

Russian: Naitive
English: B2 (Intermediate)

Additional Strengths

- B2B / B2C product design expertise
- Cybersecurity and SaaS domain specialization
- Enterprise UX and complex systems thinking
- Design system architecture and scaling
- AI-first design process integration
- Strong analytical and technical background

Professional Experience

Product Designer
AppSec Solutions
Sep 2024 — Mar 2026

- Designed high-load B2B cybersecurity products and enterprise-grade interfaces
- Owned end-to-end product design process: UX research, user flows, wireframes, prototyping, and UI delivery
- Built and maintained scalable design systems; worked extensively with Storybook
- Led UX improvements across dashboards, forms, filters, tables, and advanced workflow ecosystems
- Collaborated closely with PMs, engineers, and analysts to align user needs with business and technical goals
- Improved usability and clarity of complex B2B workflows across security-focused products

UX/UI designer
Grokhotov studio
Jan 2023 — Dec 2024

- Designed interfaces for commercial digital products and client-facing platforms
- Created wireframes, mockups, and interactive prototypes
- Designed responsive web interfaces and led multiple redesign initiatives
- Maintained and evolved design systems and UI kits across products
- Conducted usability testing and gathered user feedback for design optimization
- Presented product and interface solutions to stakeholders and development teams
- Managed multiple design streams while balancing deadlines and quality

Core Skills

Product Design
- Product Strategy
- UX/UI Design
- User Flows / CJM
- Information Architecture
- Design Systems
- Interaction Design
- Prototyping

Research & Analytics
- UX Research
- User Interviews
- Usability Testing
- Behavioral Analysis
- Metrics-Driven Optimization

Collaboration
- Cross-functional Teamwork
- Stakeholder Communication
- Facilitation
- Prioritization
- Strategic Thinking
